

## Bird ID Resources

Many great birding resources exist and you may already have your favorite. If you do find you need some suggestions, these are some favorites for CEC birders and will help you get started.

To help you identify birds we recommend these field guides:

Roger Tory Peterson Field Guide to Birds  
(Both Eastern and Western versions available)

Kaufman Field Guide to Birds of North America

Audubon Guide to North American Birds

Birds of Indiana Field Guide by Stan Tekiela

Various Bird Apps are available for your phone. Our favorite is Merlin. It is free from the App store.

Please "Join" our Facebook Group **Birding with Cope Environmental Center** to share questions, comments, photos, birding tips, and get Birdathon updates.
